Rating : Just like the room / 10
Puzzles : Played it twice to redo the puzzles that i brute-forced, and to collect all the secrets. Most of the puzzles are resonable; however, the "moon phases" puzzle on chapter 7, and the "furnace" puzzle on chapter 8 can be a little bewildering. Tip : when you think that you messed something up (a slide puzzle, rotating things the wrong way.) just quit to the main menu and the game will reset the puzzle for you.. Comes with Red Shell spyware, that monitors your browsing habits OUTSIDE THE GAME. Please do not support developers, that think selling your privacy to a third party is a good business practice.. Super glitch rich. It's as though a player shouldn't move quickly through the game, because the hints unlock functions. pretty lame.. LOVED IT, it is kinda like "Room" and "Room 2".. great puzzles!. I didn't know that Leonardo Da Vinci was a fan of towers of hanoi and sliding puzzles. Too many puzzles feel like arbitrary excuses for logic puzzles as opposed to fitting the setting and theme. I prefer the Room franchise that were more interesting in terms of puzzles.
