uma perda de dinheiro. Bowling is far too fast to enjoy this game.. FF Game for the FF holidays! Good graphics, music and sound effects! It's a simple inexpensive Christmas game with surprisingly deeper mechanics such as; where to place the attack towers (3 Types), when to upgrade and what order of towers to upgrade in to get that flawless score. This is perfect for the casual gamer but not for expert fans of the genre, unless you're really really into Christmas stuff and want to be seen playing Christmas games during the holiday. This is a PG game so it's kid friendly with 9 levels, no gore, and simple controls you can play with just 1 hand! Also for those accolade seekers this game has achievements which are reasonable in difficulty and fun. For less than a Buck! (\$0.99) you can't go wrong with this Christmas-themed games don't delay pull the trigger Noob and Stop Santa NOW! BLAHahahahahahahahaha!. This game needs more attention, hopefully my late review will help. Very fun game all in all. 10/10 pupper cuteness. So happy. Much meat. Tail wagglin' adorable.

Pros:

- good difficulty curve
- 11/10 pupper stretch
- lots of levels
- good music choice
- cute to boot

Cons:

- music gets a little repetitive, but that's about it

Fun for the whole family!

This runs between 70-80 fps on a GTX 1080, the frame rate jumping around caused me some nausea. It's the first time a VR game has had this affect on me. Visuals are blurry at distance, so overall optimisation is an issue with this game as the graphics are not exactly cutting edge.

There's some effort in the content, the horse riding in VR is neat. And there's a story and voice acted characters. But overall it's quite an amateurish production all around. I do still feel travel sickness queasy writing this review 5 minutes after quitting the game.. This game is FUN.

They're not kidding either, you need to move A LOT. But that only makes it more fun. At the end of my first game I was drenched in sweat, out of breath, and all I wanted was to play again.. The first time I bought Tropicico I was looking for something different. Tired of the same old shoot-em-up stuff. Tropicico had just come on the market and looked interesting. I was suprised at how much fun it was. i found it very addictive and ended up spending a lot of time in it. I tryed Tropicico Pirate's cove but couldn't get into it. I saw that Tropicico 3 had gone back to more the way it was and I wanted to play it again so I bought it. I am not sorry I did. There are some things I don't care as much for but overall I think it is a great game. I would recomend this to anyone.. what a \u2665\u2665\u2665\u2665ing joke. cant belive i bought a game just to fix it.... why in the \u2665\u2665\u2665\u2665 is the game even on steam if it doesnt even \u2665\u2665\u2665\u2665ing work with the current OS system out there... what the \u2665\u2665\u2665\u2665?. Fun game, but grindy. In fact, with the right combination of trash gear, you can keep going until you simply don't do enough damage to kill fast enough, then upgrade to the appropriate level of trash gear, and repeat the process. Rerolling the gear is fun as always, but costs are too high for rare gear. Charge ability is a bit OP, whereas nukes aren't that useful. All in all a fun game that requires very low initial time investment (as opposed to say, Diablo III).

Still highly recommended however, as I find this great for stress relief.
